

Replacement Brooms

Is it time to change your broom?

The Elgin Broomstick® is an easy-to-use tool which helps you determine when to replace sweeper brooms. Elgin recommends replacing tube brooms when the filament reaches 7.0 inches and side brooms when the filament reaches 6.0 inches. Regularly check the broom filament for maximum sweeping effectiveness.

Elgin Broomstick™ Gutter broom change recommendation
 For best sweeping results, replace gutter brooms with Elgin OEM brooms when filament reaches 5.5 to 6.5 inches.

Broom Down Pressure

A properly adjusted broom sweeps with the tips of its bristles. When too much down pressure is applied, the broom is no longer using its tips. This limits the "flick" action of the bristles and limits sweeping effectiveness.

To check for correct down pressure, lower the broom to the ground and rotate at normal operating speed with the machine remaining stationary. Lift the sweeping assembly and check for a 2"-4" wide sweeping path. Make any adjustment needed to down pressure and recheck path.

You trust us with your sweeping... Count on us for your brooms!

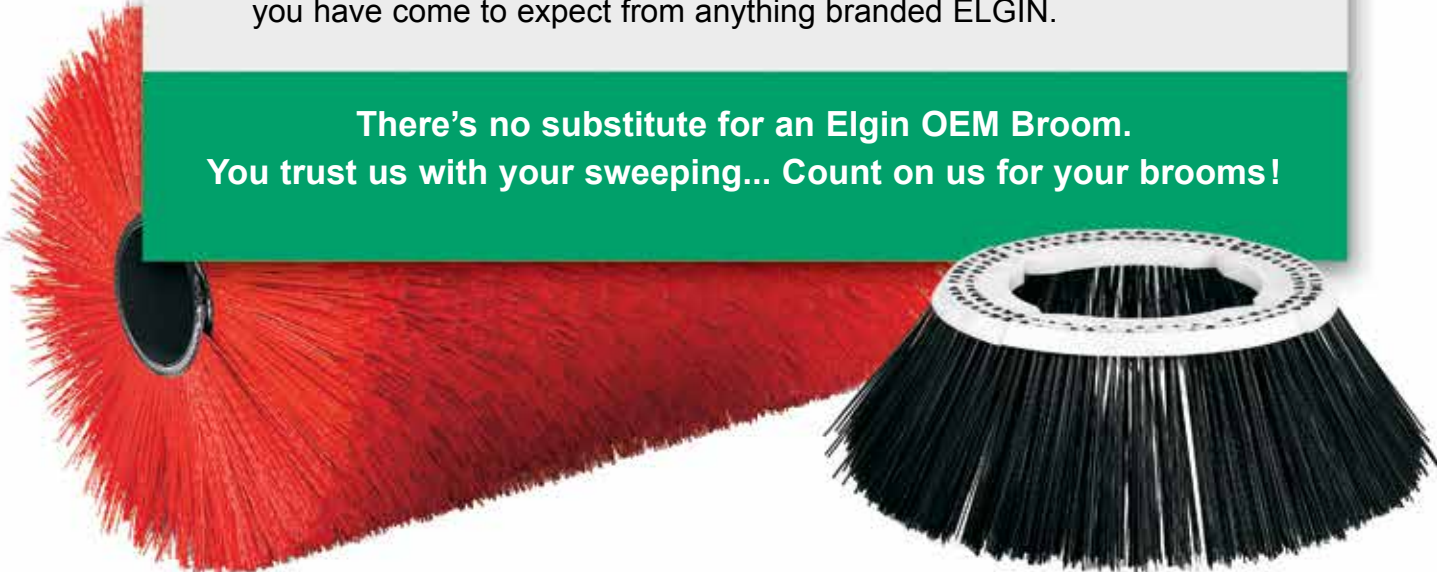

Don't get swept up in the "will-fit" and "same as" conversation. Those brooms look similar, but only Elgin brooms meet strict specifications, providing better sweeping performance and longer broom life. Your high-performance machine deserves a high-performance broom. And that's not the only reason to choose Elgin brooms:

Availability: There are over 80 dealer locations throughout North America, so the brooms you need are readily available and in-stock at these locations. You can count on your local dealer for fast, reliable delivery.

Value: Because Elgin brooms are designed for Elgin sweepers, you are guaranteed the proper form, fit and function of the brooms. Your sweeper and your brooms are from a single source – one who cares about your sweeping results.

Performance: Each Elgin broom has been specially designed to function properly and provide optimum sweep performance. All main brooms have tight end wraps for better pick-up and side brooms have optional materials and densities for better scrubbing.

Quality: Elgin maintains a consistent, high-quality manufacturing and inspection process. Our brooms deliver the same reliable Elgin quality you have come to expect from anything branded ELGIN.

**There's no substitute for an Elgin OEM Broom.
You trust us with your sweeping... Count on us for your brooms!**

Standard Tube Broom

With more broom end wraps and better filament distribution, Single-Wrap Tube Brooms provide outstanding surface coverage and flicking action.

- 100% virgin polypropylene filaments resist abrasion for longer life and better flick action
- More filament wraps allow less down pressure while providing better surface coverage
- Five tight end wraps provide better pickup at the dirt shoe, keeping debris in the sweep path
- One-piece broom unit for fast and trouble free replacement

Sweeper Model	Broom Description	Broom Part Number
Broom Badger, Broom Bear H and Athey	58-inch Single-Wrap Broom	7873206
Broom Bear, Eagle and Road Wizard	60-inch Single-Wrap Broom	7873202
Pelican	66-inch Single-Wrap Broom	7873201

Heavy-Duty Tube Broom

With almost twice the filament of a standard Tube Broom, the Double-Wrap Tube Broom is a heavy-duty option that provides the best surface coverage and longest useful life.

- 100% virgin polypropylene filaments resist abrasion for longer broom life
- Five tight end wraps provide better pickup at the dirt shoe
- More filaments per inch for better flick action
- One-piece sturdy steel tube core for fast and easy replacement

Sweeper Model	Broom Description	Broom Part Number
Broom Badger, Broom Bear H and Athey	58-inch Double-Wrap Broom	7873336
Broom Bear, Eagle and Road Wizard	60-inch Double-Wrap Broom	7873205
Pelican	66-inch Double-Wrap Broom	7873209

Strip Broom

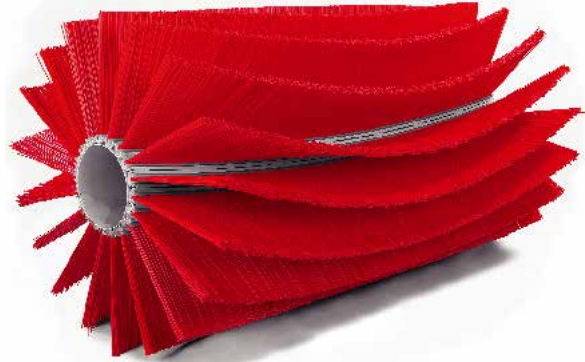

Outstanding sweeping results on high volume materials such as millings and leaves, as well as standard applications.

Easily refilled core for quick change-out by one person

100% virgin polypropylene filaments resist abrasion for longer broom life

Convenient-sized boxes ship flat, are easily stored and less expensive to ship

Durable steel cores are easily refilled by one person and reused

Sweeper Model	Broom Description	Broom Part Number
Broom Badger, Broom Bear H and Athey	58-inch Center Sweep Strip Mandrel Core	5713880
Broom Badger, Broom Bear H and Athey	58-inch Strip Set	5713881
Broom Bear, Eagle and Road Wizard	60-inch Center Sweep Strip Mandrel Core	7970077
Broom Bear, Eagle and Road Wizard	60-inch Strip Mandrel Core	7970067
Broom Bear, Eagle and Road Wizard	60-inch Strip Set	7970068
Pelican	66-inch Center Sweep Strip Mandrel Core	7970076
Pelican	66-inch Strip Mandrel Core	7970065
Pelican	66-inch Strip Set	7970066

Combination Sweep Tube Broom

For more aggressive sweeping, the combination polypropylene and wire filaments loosen and sweep up compacted debris.

50/50 polypropylene/wire tube broom for aggressive sweeping

100% virgin polypropylene filaments resist abrasion for longer broom life

Wire filament, crimped on 2 planes, cuts through compacted debris

Five tight end wraps provide better pickup at the dirt shoe

Sweeper Model	Broom Description	Broom Part Number
Broom Badger, Broom Bear H and Athey	58-inch, 50/50 Poly/Wire Combination Wafer Tube Broom	7970193
Broom Bear, Eagle and Road Wizard	60-inch, 50/50 Poly/Wire Combination Wafer Tube Broom	0710068
Pelican	66-inch, 50/50 Poly/Wire Combination Wafer Tube Broom	0710066

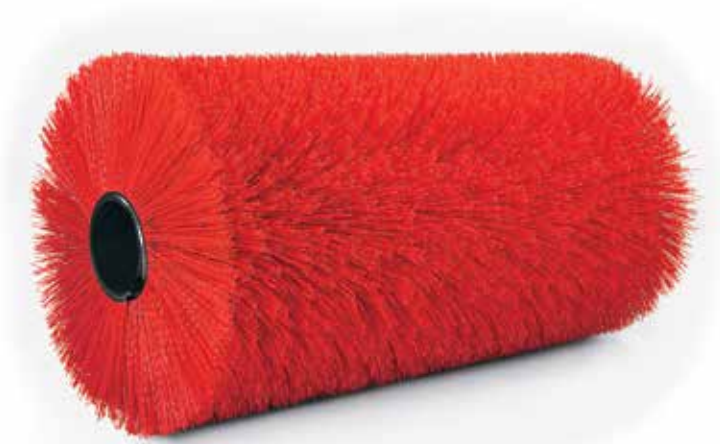

Main Brooms

Saver Sweep Broom

With the lowest initial cost, this popular option offers excellent surface sweeping at an economical price.

- 100% virgin polypropylene filaments resist abrasion
- Five tight end wraps provide better pickup at the dirt shoe
- One-piece unit for a fast and trouble-free replacement

Sweeper Model	Broom Description	Broom Part Number
Broom Badger, Broom Bear H and Athey	58-inch Broom	7873212
Broom Bear, Eagle and Road Wizard	60-inch Broom	7873202
Pelican	66-inch Broom	7873204

Wafer Section Broom

With polypropylene and/or wire wafers, this broom can be configured to provide superior flick and/or cutting action.

- 100% virgin polypropylene filaments resist abrasion
- Galvanized spring steel wire loosens compacted debris
- Steel spacers and wafer options for customizing broom density
- Durable one-piece cores are easily configured and refilled

Sweeper Model	Broom Description	Broom Part Number
Broom Bear, Eagle, Pelican, and Road Wizard	50/50 Poly/Wire Combination Wafer Set	0035617
Broom Bear, Eagle, Pelican, and Road Wizard	Wire Wafer Set	1007651
Broom Bear, Eagle, Pelican, and Road Wizard	Poly Wafer Set	1007722
Pelican	Wafer Core	1066012
Broom Bear, Eagle, and Road Wizard	Wafer Core	1035876
Athey and Road Wizard	Poly Wafer (42 required)	7970096

Extension Brooms

Extension Broom

Designed with the precise agitation pattern needed for vacuum sweepers, it windrows debris into the suction nozzle.

- 100% virgin polypropylene filaments resist abrasion for longer broom life
- Consistent red color extrusion indicates no reground materials
- More filament wraps for better sweeping with less down pressure
- One-piece unit for fast and trouble-free replacement

Sweeper Model	Broom Description	Broom Part Number
Whirlwind MV and Megawind	54-inch Polypropylene Extension Broom	7873203
Whirlwind L and Geovac	60-inch Polypropylene Extension Broom	7873207

Combination Sweep Extension Broom

By combining polypropylene and wire filaments, you get the precise agitation pattern your vacuum sweeper needs and the abrasive action for compacted debris.

- 100% virgin polypropylene filaments resist abrasion for longer broom life
- Galvanized spring steel wire cuts and loosens compacted debris
- Heavy 16 gauge tubing for broom and sweeping durability
- One-piece unit for fast and trouble-free replacement

Sweeper Model	Broom Description	Broom Part Number
Whirlwind MV and Megawind	54-inch Poly/Wire Combination Extension Broom	1071285
Whirlwind L and Geovac	60-inch Poly/Wire Combination Extension Broom	0099266

Center Brooms

Center Broom

This optional broom for the Crosswind J and NX provides agitation for the pickup head by loosening compacted debris.

- 100% virgin polypropylene filaments resist abrasion for longer broom life
- Short, dense filaments agitate and loosen debris for pickup
- Compact size is easy to ship and store
- Lightweight for easy changing

Sweeper Model	Broom Description	Broom Part Number
Crosswind J	78-inch Polypropylene Center Broom	7873208
Crosswind NX	78-inch Heavy Gauge, Polypropylene Center Broom	1100243

Combination Center Broom

Surface agitation is provided with these aggressive polypropylene/wire or all-wire brooms. Wire filament cuts and loosens compacted debris.

- Galvanized spring steel wire loosens compacted debris
- 100% virgin polypropylene filaments resist abrasion for longer broom life
- Short, dense filaments agitate and loosen debris for pickup
- Compact size is easy to ship and store

Sweeper Model	Broom Description	Broom Part Number
Crosswind	78-inch 50/50 Poly/Wire Combination Center Broom	7199067
Crosswind	78-inch Steel Wire Center Broom	7970024

Side Broom

This popular broom is robust yet competitively priced. With 17 wire strands per hole of superior steel wire, it still outperforms standard “will-fit” brooms.

Superior steel wire for extended sweeping hours

High-impact, non-rusting plastic segments — 2, 4 or 5 to a set

Densely packed segments for better sweep coverage

Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Broom Badger (RH), Broom Bear, Crosswind, Eagle and Road Wizard	17 WPH, Steel Wire Plastic Segment Set (5)	7873222
Broom Badger (LH), Fury, Megawind, Pelican and Whirlwind	17 WPH, Steel Wire Plastic Segment Set (4)	7873221
Geovac, Megawind and Whirlwind	17 WPH, Steel Wire Plastic Segment Set (2)	7873229
Athey	17 WPH, Steel Wire Plastic Segment Set (4)	7873042

Heavy-Duty Side Broom

Filled with 21 strands per hole of spring steel wire, these heavy-duty brooms provide exceptional scrubbing action and superior recovery.

Spring steel wire for aggressive sweeping and longer wear

High-impact, non-rusting plastic segments — 2, 4 or 5 to a set

Densely packed segments for better scrubbing and coverage

Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Broom Badger (RH), Broom Bear, Crosswind, Eagle and Road Wizard	21 WPH, Steel Wire, Plastic Segment Set (5)	7873223
Broom Badger (LH), Fury, Megawind and Pelican	21 WPH, Steel Wire, Plastic Segment Set (4)	7873225
Geovac, Megawind and Whirlwind	21 WPH, Steel Wire, Plastic Segment Set (2)	7873227
Athey	21 WPH, Steel Wire, Plastic Segment Set (4)	7873043

Side Brooms

Polypropylene Side Broom

Typically used for less aggressive, spark-resistant applications, these brooms are filled with polypropylene filaments for lighter, non-abrasive sweeping.

- Heavy, polypropylene filaments for less aggressive sweeping
- High impact, non-rusting plastic segments — 2, 4 or 5 to a set
- Plastic/polypropylene segments are recyclable
- Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Broom Badger (RH), Broom Bear, Crosswind, Eagle and Megawind	Polypropylene, Plastic Segment Set (5)	1047327
Broom Badger (LH), Fury, Megawind, Pelican and Whirlwind	Polypropylene, Plastic Segment Set (4)	0710020
Geovac and Whirlwind	Polypropylene, Plastic Segment Set (2)	1049971

Aggressor XR Side Broom

The XR cable and wire bristle combination broom cuts through mud and compacted debris while sweeping a clean path. Ideal for weed control, construction sites, pavement millings and airports.

Combination of cable and wire bristle for compacted debris

One-piece design for easy removal and replacement

Rugged, welded construction withstands aggressive scrubbing

Steel mounting plate keeps broom rigid during operation

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	30-inch Broom	1071439
Crosswind, Megawind, Pelican, and Whirlwind	36-inch Broom	1074477
Broom Bear, Crosswind, Eagle, and Road Wizard	44-inch Broom	1074478

Aggressor XT Side Broom

The XT is a heavy-duty PVC-coated cable broom with abrasive characteristics for extremely aggressive sweeping applications.

Heavy-duty, PVC-coated cable design

One-piece design for easy removal and replacement

Rugged, welded construction withstands aggressive scrubbing

Steel mounting plate keeps broom rigid during operation

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	30-inch Broom	1071440
Crosswind, Megawind, Pelican, and Whirlwind	36-inch Broom	1077224
Broom Bear, Crosswind, Eagle, and Road Wizard	44-inch Broom	1077225
